

Heavy haulage and plant hire solutions for large-scale mining and infrastructure projects.

CAPABILITY STATEMENT

Dharawal comes on board as your **trusted partner**, supplying the machinery and staff to help you **get the job done**. Our heavy haulage and plant hire is delivered to your site in **exceptional condition, ready to work, ensuring zero downtime on your major projects**.

You get access to the **best equipment**, the **best people**, and the **best service**, supporting your projects from **start to finish**.

Who we are

Founded in 2011, Dharawal has been providing heavy equipment and transport hire solutions to WA industry for more than 12 years.

Our mission is straightforward: to provide businesses in the mining and infrastructure sectors with the reliable equipment and personalised service you need to succeed, no matter the size or scope of your projects. Whether it's a short-term or permanent hire, we can be the go-to resource for all your mining and infrastructure equipment needs.

After all, our team understands the challenges that your business faces, because we've been there ourselves. We've worked on sites all over WA, so we get the ins and outs and challenges of the jobs you need to deliver.

To us, it's all about ensuring your projects are a success, and providing the tools you need to get it done. If you succeed, we succeed; it's as simple as that.

We are Dharawal

Dharawal is proud to be a 100% Aboriginal-owned business.

Our name, Dharawal, was chosen for its significant meaning. Dharawal land is where our founder, Nathan Briggs, was born. It's the land he grew up on, of which he's a custodian.

This name was chosen as a way to honour Nathan's culture and heritage, to connect his business with the land that has special meaning to him, as a symbol that he can take pride in.

The Dharawal logo is made up of two important elements:

- The circle of yellow represents the sun. The sun is the giver of life, the giver of hope, and the anchor that guides us wherever we go.
- The feathers are those of the lyrebird, the traditional totem of the Dharawal people. These feathers are an enduring symbol of the importance of the area, and connects the business back to Nathan's traditional land.

Company values

A Safety-First Culture

Safety isn't just a tick box for us. It's something we live and breathe. We have policies in place that ensures everyone takes ownership and responsibility for our workplace health and safety. It's a commitment that we extend to our contractors, clients, visitors, and anyone else involved with our operations, ensuring our safety policies aren't just a piece of paper: we live them everyday.

Highly Skilled Operators

To deliver the best results, you need the best people. So we ensure that our team are the best at what they do. We invest in training and upskilling to ensure our operators can manage their machines more efficiently, helping our clients to improve efficiency, limit downtime, and boost productivity.

Latest Machine Technology

Much like we invest in our people, we also invest in the technology that we use. Our machines are fitted with the latest technology to boost operator efficiency and comfort, ensuring improved safety, higher morale, and better efficiency.

Highest Quality Equipment

We choose to use top-quality equipment powered by the best names in the business, brands that are trusted to deliver more power, more reliability, and longer-lasting efficiency. We invest in the latest model vehicles, and update our equipment at regular intervals to ensure that we continue to deliver effective heavy haulage and plant hire solutions.

Strict Maintenance & Servicing

Reliability is one of the most important factors that contribute to a safer operation and successful project outcomes. To achieve this, our equipment undergoes regular scheduled servicing and preventative maintenance. And, as a licensed repairer, we carry out most of our repairs and maintenance in-house, which ensures our servicing is undertaken to our own strict standards.

Low Emission Engines

We choose vehicles with low-emission engines for many reasons. Low emission engines are more fuel efficient, meaning you save money on consumables. They generate fewer CO2 emissions, contributing to a more sustainable fleet, and increased ESG efforts. And they create less noise pollution, which means a happier community surrounding your projects.

An Inclusive Culture

Being a 100% Aboriginal-owned business, we're passionate about creating employment and career progression opportunities for both Aboriginal people and women in the mining, construction, and transport industries. We've instituted a career training funnel that provides comprehensive training opportunities and upskilling for people genuinely willing to learn, who want to take an active part in building a successful career on their own terms.

Management team

Nathan Briggs
Director

Nathan has over 20 years of hands-on experience in mining and civil construction, overseeing every element that's involved, from inception to completion. He leverages this expertise to optimise processes and undertake comprehensive project management, facilitating safe and cost-effective operations for Dharawal's partners and clients. Nathan's passion for problem solving ensures fast and effective solutions to keep your project moving.

With a genuine love of the industry, Nathan's personalised service takes the stress out of the scheduling process, ensuring that a partnership with Dharawal exceeds your expectations across all deliverables.

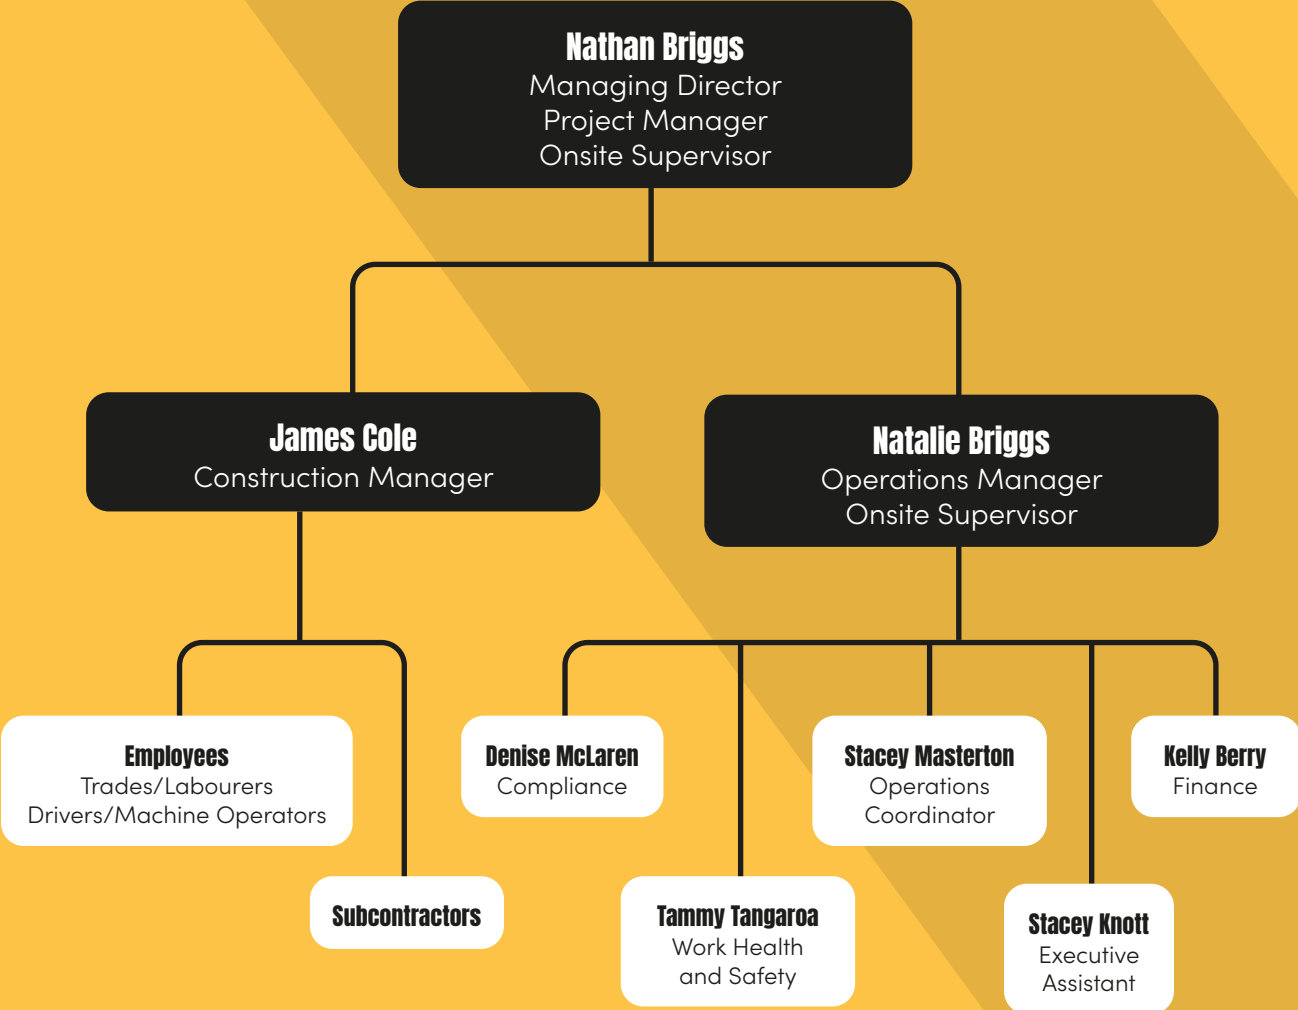

Natalie Briggs
Operations Manager

Natalie has an extensive background in project management in the mining and civil construction industries. With strong analytical skills, combined with the ability to manage and improve processes, and utilise exceptional communication and exceptional leadership skills, this allows her to develop positive long lasting connections with our clients.

Natalie is the driving force behind Dharawal's operations, and supports your project from beginning to end to ensure it runs seamlessly.

Company snapshot

Management structure

“We’re a full-service heavy haulage and plant hire partner for businesses in the mining, infrastructure, and construction industries that delivers tailored solutions to major projects all across the state. Our focus is to support you in your success.”

Nathan Briggs
Director & Founder

We're committed to building careers

We're **passionate** about what we do here at Dharawal. And that includes **supporting the growth of our people.**

We're committed to providing **dedicated employment pathways** across our organisation that work to **improve social and economic opportunities for Aboriginal people.**

Driven by our founder and director, Nathan Briggs, we have an active **Aboriginal Employment and Mentorship program** that provides opportunities for young Aboriginal people to **kickstart their career**, and **get their foot in the door** of an exciting and dynamic industry.

We achieve this by working with communities, industry bodies, and our clients to develop and provide **comprehensive training, mentoring**, and **upskilling** that prepares our candidates for work, and builds the **skills and capabilities** that set them on a **rewarding career.**

Our expertise

At Dharawal, we make hard work easy.

We provide high quality, late model transport equipment on demand, and our plant and equipment can be commissioned with or without operators.

Heavy Haulage

Our team has worked on projects all across the state, which has given us in depth insight into the challenges that your business faces in getting your materials where they need to go.

Located in Perth and Port Hedland, we provide heavy haulage transport services throughout Australia. We specialise in moving over dimensional loads up to 100 tonnes, and provide tailored solutions for any and all transport needs.

You get customised haulage services designed to meet the specific requirements of your business, whether it's transporting oversized machinery, mining materials, or heavy construction equipment.

Available across a variety of industries, including transport, mining, and construction, these are practical solutions for moving overmass and oversized loads, without needing to rely on your own equipment.

Prime movers and float trailers:

- Kenworth T659
- Kenworth T610
- Kenworth K220
- Volvo FM11
- Drake 50 tonne floats
- Drake 100 tonne floats

Plant hire

At Dhawaral, we provide comprehensive plant and equipment hire solutions to ensure you can access the right tools to keep your project running smoothly.

We have a diverse fleet of late model trucks, trailers, and earth moving equipment, each one regularly maintained and services to ensure the highest standard, and available on a wet or dry hire basis, depending on your needs.

Available for short-term, contract, or permanent hire, our fleet is constantly growing, with new machinery on the way to ensure more opportunities to support your projects.

We're proud of our fleet, and only acquire vehicles and machinery that we trust to get the job done efficiently and effectively. We choose industry-leading brands that you can rely on for their longevity and hard-wearing approach.

Plant hire

- Wheel Loaders
- Compaction Rollers
- Water carts
- 6-wheel tippers
- 8-wheel tippers
- Rigid Tippers

Our experience

We're committed to the success of our clients, and partner with companies all around the country to deliver heavy haulage and plant hire solutions. Our clients rely on our services to ensure their projects are delivered on time, and on budget, with zero downtime.

Our support is powering these clients' success.

The way we work

Our commitment to health, safety, and the environment

We take a top-down approach that ensures our health and safety policies guide our decisions every single day.

Team wellbeing

We know that our operators put in long hours in their vehicles. Long hours in tough conditions. So the health and wellbeing of our people is paramount.

At Dharawal, we're genuine about creating a safe and supportive workplace culture, both on the job and in everyday life. We do this by having regular check-ins with our team, and offering training topics that provide tips and education on how to keep safe and happy both at work, and at home.

The way we work

Health & safety policy

We're committed to safe work practices and fostering a work environment that eliminates the incidence of injuries, enabling us to achieve a "Zero Incident" rating.

To deliver on our commitment, we will:

- Provide a safe working environment and safe systems of work.
- Provide safety policies, procedures, and systems in accordance with all applicable Acts and Regulations.
- Provide and maintain safe equipment, substances, and materials.
- Consult with employees and others bodies on health and safety matters.
- Provide information, instruction, training, and supervision to ensure safe systems of work.

Every one of our employees, staff, and contractors are required to:

- Adhere to safe work practices, objectives, and instructions.
- Never misuse, damage, refuse to use, or interfere with anything provided for the purposes of health and safety.
- Report all known or observed hazards, incidents, and injuries.
- Perform work duties in a manner that promotes health and safety for everyone.

Environment policy

We ensure that our operations are conducted and maintained in an environmentally sustainable and responsible manner. We do this by identifying, where practicable, and eliminating aspects of our operations that may either pollute or in any way degrade the surrounding environment, so that regulatory requirements are met and where possible exceeded.
